

APEX Home School Program

Curriculum List & Descriptions

(revised April - 2016)

Please note that you are not required to buy your Consumables/Materials from APEX. We provide them as a convenience and pass along our costs to you.

It is strongly recommended that you purchase consumables available for any subject. Most Textbooks are not effective as home school curriculum without these consumables.

Teacher Editions are useful when providing answers or solutions, however TEs are written for a classroom teaching situation and can be difficult to decode and apply to individual home school teaching.

Most curriculum comes with a Student Text and a Teacher Edition (on request and if available). Consumables must be paid for, by cash, check or online thru RevTrak prior to receipt. **APEX Program cannot issue refunds for consumables.**

Please use this description and price list as your worksheet to work through and make your curriculum selections before filling out an order form.
